## DESCRIPTION OF STUDENT PERFORMANCE LEVELS

The Principal

The level of performance is determined by the score obtained in the summative assessment.

Level 1 indicates unsatisfactory performance. The student performance is below average and will require assistance where competences were not acquired (mentoring, extra homework).

Document authenticated by EDUCAFRIC digital signature

Level 2, while indicating success, C means performance that is not entirely satisfactory. The student demonstrates some competence but needs resources to develop the competence. Performance at this level shows that the student should strive to overcome specific shortcomings in his/her learning.

C+ means the performance is fairly satisfactory. The student demonstrates, with certain effectiveness, the ability to use resources to develop the competence. Performance at this level shows that the student should strive to overcome specific shortcomings in his/her learning.

C means the performance is satisfactory. The student demonstrates, with effectiveness, the ability to use resources to develop the competence. Performance at this level shows that the student should strive to overcome specific shortcomings in his/her learning.

C+ means the performance is fairly satisfactory. The student demonstrates, with certain effectiveness, the ability to use resources to develop the competence. Performance at this level shows that the student should strive to overcome specific shortcomings in his/her learning.
