SUBJECT: PROPOSAL REQUEST – IMPLEMENTATION OF THE EDUCAFRIC DIGITAL LEARNING PLATFORM

Dear Sir or Madam,

We are seeking from your institution a detailed quotation for access to the advanced features of the Educafric platform, designed to effectively meet the communication and school monitoring needs of the digital age.

Our particular interest is in the following services:

Instant notifications & international SMS – Sending personalised notifications and SMS messages to the entire school community (parents, teachers, pupils, and freelancers), including recipients abroad, in order to provide real-time information on any news, emergencies, or school events.

Child geolocation – Secure geographical tracking of pupils to ensure their safety during school hours and on journeys to and from school.

Interactive timetables – Digital provision and management of timetables for pupils, teachers, and freelance contributors, accessible at any time via the platform.

Digital absence register – Entry, centralisation, and automatic notification of absences, with instant alerts sent by SMS or notification to the relevant parents, facilitating administrative follow-up and swift decision-making.

Unified communication – A centralised communication channel between the school, teachers, pupils, parents, and freelancers, allowing smooth exchanges, the sharing of educational and administrative information, and the organisation of events or scheduling of meetings.

Attendance reports and academic tracking – Automated reports such as grade sheets or progress notifications, sent directly to parents and pupils to enable dynamic monitoring, regardless of their place of residence.

We would be grateful if you could provide us with a proposal tailored to educational institutions, including details of integration arrangements, pricing options, and an outline of the security guarantees associated with these services.

We remain at your disposal for any further information or to arrange a personalised demonstration, and we look forward to hearing from you.

Yours faithfully,

Simon Abanda
